

NKM2 – NKM2 TASK 3: PRESENTATION OF FINDINGS

DATA ANALYTICS GRADUATE CAPSTONE – D214

PRFA – NKM2

Task Overview

Submissions

Evaluation Report

COMPETENCIES

981.1.1: Capstone

The graduate integrates and synthesizes competencies from across the degree program and thereby demonstrates the ability to participate in and contribute value to the chosen professional field.

INTRODUCTION

In the professional field, you will often be asked to present complex data and findings to your data analytics peers as well as to people who have little or no experience with data mining and analytics. You will need to demonstrate effective communication skills to present your findings to different audiences.

For this task, you will create an executive summary of your findings from task 2 and then use Panopto to record yourself delivering a presentation of that summary. Your presentation will also include slides displayed by a multimedia tool (e.g., PowerPoint, Keynote, Prezi). This presentation will reiterate, in laymen's terms, your findings from task 2.

Note: The audiovisual recording should feature you visibly presenting the material (i.e., not in voiceover or embedded video) and should simultaneously capture both you and your multimedia presentation.

Note: For instructions on how to access and use Panopto, use the "Panopto How-To Videos" web link provided below. To access Panopto's website, navigate to the web link titled "Panopto Access", and then choose to log in using the "WGU" option. If prompted, log in using your WGU student portal credentials, and then it will forward you to Panopto's website.

To submit your recording, upload it to the Panopto drop box titled "MSDA Capstone- D214 | NKM2." Once the recording has been uploaded and processed in Panopto's system, retrieve the URL of the recording from Panopto and copy and paste it into the Links option. Upload the remaining task requirements using the Attachments option.

Before starting this task, ensure that task 1 and task 2 have a passing score. If task 1 or task 2 has not yet passed, your task 3 submission will be returned without evaluation.

REQUIREMENTS

Your submission must be your original work. No more than a combined total of 30% of the submission and no more than a 10% match to any one individual source can be directly quoted or closely paraphrased from sources, even if cited correctly. The originality report that is provided when you submit your task can be used as a guide.

You must use the rubric to direct the creation of your submission because it provides detailed criteria that will be used to evaluate your work. Each requirement below may be evaluated by more than one rubric aspect. The rubric aspect titles may contain hyperlinks to relevant portions of the course.

*Tasks may **not** be submitted as cloud links, such as links to Google Docs, Google Slides, OneDrive, etc., unless specified in the task requirements. All other submissions must be file types that are uploaded and submitted as attachments (e.g., .docx, .pdf, .ppt).*

Executive Summary and Implications

- A. Develop an executive summary using your data and results from task 2. The summary should be written for a *technical audience* of your data-analytics peers or members of your team and should include *each* of the following:
- a statement of the problem and the hypothesis
 - a summary of the data-analysis process
 - an outline of the findings
 - an explanation of the limitations of the techniques and tools used
 - a summary of proposed actions
 - expected benefits of the study (be as specific and quantitative as possible)

Presentation of Findings

- B. Present your Capstone project to a *non-technical audience*. Use Panopto to record yourself delivering a presentation that includes slides displayed by a multimedia tool (e.g., PowerPoint, Keynote, Prezi). Your recording should capture your multimedia presentation. Your presentation should also demonstrate appropriate communication skills for the audience.
1. Cover in your presentation *each* of the following points:
- a brief introduction of yourself and your background
 - a statement of the problem and the hypothesis
 - a summary of the data-analysis process
 - an outline of the findings
 - an explanation of the limitations of the techniques and tools used
 - a summary of proposed actions
 - expected benefits of the study (be as specific and quantitative as possible)
- C. Acknowledge sources, using in-text citations and references, for content that is quoted, paraphrased, or summarized.
- D. Demonstrate professional communication in the content and presentation of your submission.

File Restrictions

File name may contain only letters, numbers, spaces, and these symbols: ! - _ . * ' ()

File size limit: 200 MB

File types allowed: doc, docx, rtf, xls, xlsx, ppt, pptx, odt, pdf, csv, txt, qt, mov, mpg, avi, mp3, wav, mp4, wma, flv, asf, mpeg, wmv, m4v, svg, tif, tiff, jpeg, jpg, gif, png, zip, rar, tar, 7z

RUBRIC

A:EXECUTIVE SUMMARY AND IMPLICATIONS

NOT EVIDENT

An executive summary is not provided.

APPROACHING COMPETENCE

The executive summary does not include *each* of the given points or is not appropriate for a technical audience of data-analytics peers or team members.

COMPETENT

The executive summary includes *each* of the given points and is appropriate for a technical audience of data-analytics peers or team members.

B:PRESENTATION: ORGANIZATION AND PROFESSIONALISM

NOT EVIDENT

A presentation is not submitted, or the presentation does not relate to data analytics.

APPROACHING COMPETENCE

The presentation of the capstone project is unclear, or disorganized. Or the video does not capture the multimedia presentation. Or the data representations used are inappropriate for a non-technical audience.

COMPETENT

The presentation of the capstone project is clear, organized. The video captures the multimedia presentation. The data representations used are appropriate for a non-technical audience.

B1:PRESENTATION: CONTENT

NOT EVIDENT

A presentation is not submitted, or the presentation does not reflect the data found in the capstone project.

APPROACHING COMPETENCE

The presentation reflects the data found in the capstone project but does not include 1 or more of the given points.

COMPETENT

The presentation includes *each* of the given points and reflects the data found in the capstone project.

C:SOURCES

NOT EVIDENT

The submission does not include both in-text citations and a reference list for sources that are quoted, paraphrased, or summarized.

APPROACHING COMPETENCE

The submission includes in-text citations for sources that are quoted, paraphrased, or summarized and a reference list; how-

COMPETENT

The submission includes in-text citations for sources that are properly quoted, paraphrased, or summarized and a reference list that accurately identifies the au-

ever, the citations or reference list is incomplete or inaccurate.

thor, date, title, and source location as available.

D: PROFESSIONAL COMMUNICATION

NOT EVIDENT

This submission includes professional communication errors related to spelling, grammar, punctuation, and sentence fluency. For best results, please focus on the specific Correctness errors identified by Grammarly for Education to help guide your revisions. If you need additional assistance preparing your submission, please contact your Instructor.

APPROACHING COMPETENCE

This submission includes professional communication errors related to spelling, grammar, punctuation, and/or sentence fluency. For best results, please focus on the specific Correctness errors identified by Grammarly for Education to help guide your revisions.

COMPETENT

This submission demonstrates correct use of spelling, grammar, punctuation, and sentence fluency. You have demonstrated quality professional communication skills in this submission.
